

FIG Working Week 2005 and GSDI-8 Conference

Pre-Conference Seminar
Cairo, Egypt
Sunday, April 17, 2005
9:00am to 4:30pm

Title:

GIS: The Business of National Mapping

Topic:

This seminar will focus on the practical implementations of GIS. Topics will include the value of GIS for streamlining the workflow of national mapping agencies in the creation and maintenance of land records and spatial data infrastructure. Solutions for survey measurement, land records management, national map production, and data dissemination will be highlighted.

For further information about ESRI's GIS solutions for Surveying, Land Records and Cadastre, and Spatial Data Infrastructure, please refer to:
www.esri.com/industries.html

Agenda:

9:00 to 10:30	Overview Building GIS Infrastructure Service-oriented Architecture
10:30 to 11:00	<i>Break</i>
11:00 to 12:30	Survey Measurement Multi-purpose Cadastre
12:30 to 14:00	<i>Lunch Break</i>
14:00 to 15:30	GIS-based Cartographic Production
15:30 to 16:00	<i>Break</i>
16:00 to 17:30	Portals and Publishing
