

News Brief | August 2023

G'day FIG C7 delegates and friends,

Welcome to the (slightly late) August news brief! Got C7-related news? Share it with the rapidly re-growing C7 community. Our work in the area of land management and cadastre is important as ever – be it at local, country, or international level – for sustainable economic, social and environment development. Jump on board

1. FIG C7 Annual Meeting, Netherlands: 1 month to go!

With almost **50 abstracts**, speakers from across **all global regions**, huge **industry support** (thanks to esri, Trimble, esri, and VNG), **international agency** representation, and topics including **3D** land administration, **AI** applications, **FFPLA**, **UN FELA**, and **Women's Access to Land**, this promises to be a great event. Registrations are still open, but our venue has limited space – so, get in quick. Please note: abstract registrations have now closed. You can find all the details on the website:

Website: https://fig.net/organisation/comm/7/activities/events/2023_annual_meeting.asp

Registration: <https://www.fig.net/registrations/regform.asp?eventid=301>

Highlights:

- Full **3-day technical program** covering all aspects of C7 and C2 2023-26 workplans
- **Kick-off evening** in the historic Hanseatic city centre of Deventer
- **Joint C7 and C2 dinners** and social events alongside the technical program; including **brewery visit**, city walks and access to the IJssel River
- Tour of the **Kadaster museum** in the South of Arnhem
- Visit to the famous **ITC Faculty and its new home** on the campus of University of Twente

2. 11th International Workshop on LADM/3D Land Administration, Sweden

The 11th **3D LA/LADM International Workshop** immediately follows the C7 Annual Meeting, in very close by Gävle, Sweden 11-13 October. This event drills deep into the developments happening around the ISO LADM renewal, including 3D-ization of cadastres (also included in the LADM renewal): **Website:**

3. Integeo 2023, Berlin

Also post-C7 AM, travel onwards, via train, to one of the biggest geospatial-tech trade shows globally: **Integeo in Berlin**, Germany. Note: Deventer station sits on the direct line between Amsterdam and Berlin.

4. Norway Special Issue: Call for Papers

In the spring of 2024, the journal *Kart og Plan* will have a thematic issue on **cadastral systems and accreditation arrangements** for cadastral surveyors. The background for the issue is that from 1.1.2026, the person who is responsible for carrying out a cadastral survey in Norway must be an authorized land surveyor, fulfilling a legally mandated accreditation requirement. The introduction of an accreditation requirement is a recent development within the field in Norway, presenting new opportunities and challenges for the profession. The editors are looking for articles that address legal, technical and/or ethical issues related to property formation and property registration, practitioners and accreditation requirements. They are not only interested in articles that look at the new Norwegian accreditation system, but also welcome articles that look at accreditation arrangements in other countries, both other Scandinavian countries and further afield.

5. Calling all Young Cadastral Surveyors and Land Administrators

The **FIG Young Surveyors Network** invites everyone to the 4th Regional Meeting of the FIG Young Surveyors Network Asia and the Pacific with the theme "Geo-Revolution, Better Life for all", on November 8-10, 2023 at Kintex 2, Exhibition Hall 10, Seoul, South Korea. Together with the Smart GEO Expo 2023, there will be sessions and discussions about the challenges facing by young surveyors, a social dinner, and a day of exploration and cultural tours.
