African Regional Network – Nairobi 2015 

Group Work 4.I - Capture and your thinking

What you will be doing:

Consider how Big data and changing technology needs are to be built into your Agenda for Action

Your Focus:

Use 'hard facts' under the slogans to organise your thinking on Big Data:

- Capture,
- Compute,
- Create
- Collaborate

Tomorrow, you will combine Infor graphic, big data, SDG's into an Agenda for Action format

Support material: RICS material x 3 **Return 16.45**

African Regional Network – Nairobi 2015 

Workshop Output: The 4 As

It will be

- A **call for Action** for the next five year period
- Enable member Associations to help their own members to **Acknowledge inter-generational diversity** in the work place.
- Identify **priority Areas that will affect** those operating in the land professional sector across Africa, such as Mentoring.
- Seek to build on **Awareness** of increasing use of **big-data management** in the work place and the contribution land professional should make to the **SDG land targets**.

African Task Force – Nairobi 2015
